The Ghost of Hampton Court

By *Martha Hannah*

Illustrated by *Larry Dowell*

"What a marvelous book! I love it so much! I could go on and on about all the things I love about it. I just pore over those beautiful illustrations. I particularly like the one in which Catharine is heading to the chopping block (I love that interesting perspective). The moodiness that permeates the book certainly leads up to that magnificent ghost picture. Gives me the chills right now to think about it. I'm ready for the second in the series."

"I enjoyed reading your book and laughed out loud at the testimonials on the back! Really clever and hilarious! As the Brits say, "Well done, both of you!"
